rural population. The Government is aware of the problems of the rural sector and has already initiated several measures and schemes for the benefit of the rural sector. The Technology Missions have been set up with the primary objective of the uplift of the rural population through science & technology. Even, the most sophisticated science and technology applications such as Remote Sensing etc. have been made use of for the improvement of the conditions of poor farmers, and weaker sections. In the area of satellite communication, the satellite based rural telegraphic net work and satellite TV are of special significance in rural development. Science exhibitions and seminars are conducted in the rural areas to disseminate information on S&T development in the country for the benefit of rural economy. The progress of these programmes is constantly reviewed by the concerned Government Departments.
